Intended Use Summary

For veterinary patients, including but not limited to dogs and cats, the user should consider the physical stature of the patient to determine if Halcyon is the appropriate treatment platform. Species-specific adjustments to the treatment plan and treatment delivery may be necessary and should conform to the standards of practice in the veterinary community. During treatment, the anesthetic protocol and intra-anesthesia monitoring of the patient should conform to the standards of practice in the veterinary community.

Important Safety Information

Radiation therapy is not appropriate for all cancers. For more information, please visit www.varian.com/safety.
