

#1 PROBIOTIC BRAND
 RECOMMENDED BY VETERINARIANS*

PROMOTES A HEALTHY
 GI MICROBIOME

Probiotic supplement for the dietary management of puppies and adult dogs with diarrhea, or kittens and adult cats with acute and chronic diarrhea

Contains a probiotic proven to promote normal intestinal flora

For canine patients, also available in 45- or 90-count packages of chewable tablets

*Synovet, Probiotic Awareness Initiative Study, March 2016

Synbiotic action of prebiotics and probiotics to manage diarrhea and support a healthy intestinal microbiome

Contains prebiotics to increase gastrointestinal microbial diversity

Contains prebiotic fiber (psyllium) to stimulate the growth of specific bacteria, including *Lactobacillus* and *Bifidobacterium* species

PROMOTES HYDRATION
 IN CATS

A nutrient-enriched water containing osmolytes, which help cells absorb water

Cats consume on average 50% more liquid each day**

Shown to decrease urine specific gravity and osmolality**

**Compared to cats consuming only water in addition to dry kibble. Cats must consume at least 0.5 oz per 5 lbs of bodyweight daily for benefit.
 1. Wiles-Platts E, and Zanghi B. Nutrient-Enriched Water

HELPS DOGS MAINTAIN
 CALM BEHAVIOR¹

Proprietary use of probiotic strain *Bifidobacterium longum* (BL 999), shown to help dogs maintain calm behavior

Helps dogs cope with external stressors like separation, unfamiliar visitors, novel sounds or changes in routine and location

¹Thudler-Kilweitz McGowan, R. Impact on the gut microbiome by *Bifidobacterium longum* in anxiety-prone dogs. ACVIM Symposium 2016

Helps dogs maintain positive cardiac activity during stressful events
